A. Multiple instances on a single computer
B. Support for high security requirements
C. Scale out for High Availability and Failover
D. Single users working on a single computer
E. Evaluation of end user functionality
Answer: A,B,C
Explanation:
Explanation
Enterprise Install: This installation type assumes some familiarity with Oracle Business Intelligence. All software components are downloaded onto one computer. You can accept the default configuration settings or use your own. You use this installation type when you have an established Oracle WebLogic domain, and you want to extend it to the Oracle Business Intelligence application. This install option is typically used for more advanced deployments with multiple users, such as to scale out a deployment on additional computers.

NEW QUESTION: 4

A. Option B
B. Option A
