**NEW QUESTION: 1**

ISO 14000 standards are designed to help organizations manage their environmental responsibilities. Which of the following is a benefit of ISO 14000?

A. ISO 14000 standards are designed to help organizations manage their environmental responsibilities.

B. ISO 14000 standards are designed to help organizations manage their financial responsibilities.

C. ISO 14000 standards are designed to help organizations manage their human resources.

D. ISO 14000 standards are designed to help organizations manage their information systems.

**Answer: D**

Explanation:

Many European countries already have environmental systems in place, and many individual countries' standards are typically more strict than the ISO 14000 standards.

**NEW QUESTION: 2**

You are designing an optical network. Your goal is to ensure that your design contains the highest degree of resiliency. In which two ways will you leverage a wavelength-switched optical network solution in your network design? (Choose two.)
