Our amazing and incompatible SAP C-IBP-2111 study guide, You won't regret for your wise choice, Our latest C-IBP-2111 quiz prep aim at assisting you to pass the C-IBP-2111 exam and making you ahead of others.

NEW QUESTION: 1
Company ABC was formed by combining numerous companies which all had multiple databases, web portals, and cloud data sets. Each data store had a unique set of custom developed authentication mechanisms and schemas. Which of the following approaches to combining the disparate mechanisms has the LOWEST up front development costs?
A. PKI
B. Federated IDs
C. Attestation
D. Biometrics
Answer: B

NEW QUESTION: 2
You plan the migration from Dynamics AX 2012 R3 to a Dynamics 365 for Finance and Operations environment. You will be using Lifecycle Services (LCS) and the tools provided with it.
You need to clean up data, review and configure SQL

optimizations, and identify deprecated features in your code.
What tool should you use?
A. Data Import/Export Framework (DIXF)
B. Code upgrade estimation tools
C. Microsoft Azure DevOps
D. Upgrade analyzer
Answer: D
Explanation:
Topic 1, Relecloud Case
Background
Relecloud is a cloud point of sale (POS) software company specializing in direct to consumer food stands.
They have multiple business units using their new Dynamics 365 Finance and Operations implementation including customer-facing representatives for account management, technical support, customer service, and finance. There are two legal entities, one for operations and one for financials. Customers pay for the Relecloud POS software monthly and everything is deployed in the cloud. The Dynamics instance URL is https//relecloud prod operations.dynamics.com.
Munson's Pickles and Preserves Farm is a company that uses Relecoud's cloud POS software to sell their produce in farmers markets. Munson's was one of Relecloud's first customers, and Relecloud stocks their employee lunchroom with Munson's products. Munson's has also been subcontracting their employees to Relecloud to help functionally build a best-in-breed solution. Munson's employees assume multiple organizational positions. Each employee has only a single email address by which people can contact them.
Current environment: System and IT
* Dynamics 365 for Finance and Operations was recently updated.
* All recurring batch jobs in the system were removed and recreated.
* The alert notification batch processing was recently changed from every 10 minutes to once every two hours.
* Real-time reporting of the information is not needed.
Current environment: Customer Service
* Customer credit requests are entered through the customer service team.
* All requests must contain a date, time, reason for request, and customer service notes on initial recommendations for credit action.
* Customers have multiple points of contact who can enter support tickets to the Relecoud portal.
* Tickets are automatically generated in the support team's third-party system when they are created by support technicians.
* The Dynamics 365 email client mail is used to correspond with customers.
Current environment: Technical Support/IT
* The technical support team gets involved when technical issues arise with the Relecloud software.
Service tickets are entered and get escalated to the team,

depending on the issue.
* Microsoft Flow is used for automating different workstreams.
* Workflows are not configured for the technical support
request flows in Dynamics 365 Finance and Operations.
* Management and history of technical support tickets are
handled in a third-party issue management solution.
* The technical service team manages issues related to the
Relecloud POS as well as the Dynamics 365 application.
Current environment: Account Representatives
* Each customer is assigned a single account representative.
* Account representatives use multiple devices.
* Only account representatives have the ability to approve
credits.
* All email to customers come through their own Outlook
instance.
Current environment: Finance
* Customers do not have invoice accounts.
* Only finance resources have the ability to enter credits.
* Credits can be entered by any of the four finance resources
assigned the Credits and Refunds security role.
* If the request has not been updated in four days, the request
is escalated to the Controller. The account representative must
be alerted when this occurs.
Requirements: Technical support/IT
* Support technicians must use Microsoft's existing knowledge
base to resolve open issues.
* If an issue exists, support technicians must report the
status of the issue on a weekly basis.
* If there is no existing support request, support technicians
must create one for Microsoft evaluation.
* All software must be installed centrally when possible.
* The Dynamics 365 Finance and Operations production
environment must have an update cadence of every second
Saturday from 4-7 A.M. EST.
* Updates must be tested in separate environment.
Requirements: Account representatives
* Account representatives must be able to see only the relevant
customer fields and records automatically from their dashboard.
* Account representatives must be able to export the list of
customers to Microsoft Excel.
* Account representatives must be able to navigate to the
customer master record for any editing or record entry tasks.
* The forms must be relevant based on each account
representative's needs.
* Account representatives need a centralized location to see
multiple data components.
* Account representatives require an offline list of their
current customers in Excel with only the fields they need.
* The IT Director must reassign all instances of an account
representative's customer contacts if the representative leaves
the company.
* An alert must be sent automatically to an account
representative when a credit is issued or any data is changed

on a customer's record.
Requirements: Financials
* Any refund must be printed as a physical check.
* All printers must be exclusive to the financial legal entity.
Issues
* Typing 'pickle' in the search box yields no returned results
for the account representative.
* After the latest update, an account representative reports
that he is no longer receiving alert notifications when a
customer's contact is changed.
* An account representative has recently resigned.

NEW QUESTION: 3
You are the administrator for your company's Cloud Volumes
ONTAP instances in AWS. You are experiencing problems with
OnCommand Cloud Manager. NetApp support asks you to provide log
files.
In this situation, which two methods would accomplish this
task? (Choose two.)
A. Go to the AWS Management Console and collect the logs from
AWS CloudWatch.
B. Use SSH to log in to the Cloud Manager instance and collect
the logs from the "/opt/application/netapp/cloudmanager/log"
directory.
C. Set up a remote session with amazon Web Services (AWS)
support to demonstrate the problem.
D. Go to the Support Dashboard in the Cloud Manager UI and
click the Send Now button.
Answer: A,B
