HOTSPOT

You need to ensure that users can sort files by using the Projects field.

From the List Settings page, which option should you select? (To answer, select the appropriate option in the answer area.)

Hot Area:

Answer:

Explanation:

Explanation/Reference:

* To improve the performance of a large list or library, you can index a column. Then you can use the indexed column to filter new or existing views of the list or library.

An indexed column is ordered.

Incorrect:

Column ordering is how the columns are ordered horizontally not how the records are ordered.
