99% people will buy our EX415 test torrent material after trying the free demo of the training material, One point does farm work one point harvest, depending on strength speech!

NEW QUESTION: 1

Successful social engineering attacks can BEST be prevented through:

- A. efficient termination procedures.
- B. close monitoring of users' access patterns.
- C. preemployment screening.
- D. periodic awareness training.

Answer: D

Explanation:

Explanation

Security awareness training is most effective in preventing the success of social engineering attacks by providing users with the awareness they need to resist such attacks. Screening of new employees, monitoring and rapid termination will not be effective against external attacks.

NEW QUESTION: 2

You have an Azure policy as shown in the following exhibit.

What is the effect of the policy?

- A. You can create Azure SQL servers in any resource group within Subscription1.
