NEW QUESTION: 1

You manage computers that run Windows 8.

You plan to install a desktop app named MarketingApp on one of the client computers.

You need to display a progress bar to the user while installing the app.

Which command should you run?

- A. `msiexec /i marketingapp.msi /qb`
- B. `msiexec /x marketingapp.msi /qn`
- C. `msiexec /x marketingapp.msi /qb`
- D. `msiexec /i marketingapp.msi /qn`

Answer: A

Explanation:

[http://technet.microsoft.com/en-us/library/cc759262\(v=ws.10\).aspx](http://technet.microsoft.com/en-us/library/cc759262(v=ws.10).aspx)

`/i` installs or configures a product `/qb` displays a basic user interface

NEW QUESTION: 2

You are using existing reports to build a dashboard that will be viewed frequently in portrait mode on mobile phones.

You need to build the dashboard.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

Explanation

Explanation:

When you view dashboards in portrait mode on a phone, you notice the dashboard tiles are laid out one after another, all the same size. In the Power BI service, you can create a customized view of a dashboard, specifically for portrait mode on phones.

Step 1: Open the Dashboard.

Step 2: Change the dashboard view to Phone view

Step 3: Pin items from the reports to the dashboard.

Step 4: Rearrange, resize, or remove items from the Phone view.

Create a phone view of a dashboard

1. In the Power BI service, open a dashboard (Step 1)

2. Select the arrow next to Web view in the upper-right corner > select Phone view. (Step 2)

The phone dashboard edit view opens. Here you can unpin, resize, and rearrange tiles to fit the phone view.

The web version of the dashboard doesn't change.

3. Select a tile to drag, resize, or unpin it. You notice the other tiles move out of the way as you drag a tile. The unpinned tiles go in the Unpinned tiles pane, where they stay unless you add them back.

4. If you change your mind, select Reset tiles to put them back in the size and order they were before.

5. When you're satisfied with the phone dashboard layout, select the arrow next to Phone view in the upper-right corner > select Web view.

Power BI saves the phone layout automatically.

NEW QUESTION: 3

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company uses a network ID of 10.0.0.0/8.

The company opens a new office that uses a network ID of 10.5.0.0/16. The office has three floors. Each floor has a VLAN. The network ID of each VLAN is 10.5.10.0/24, 10.5.20.0/24, and 10.5.30.0/24.

You create a distribution point for the new office.

You plan to distribute content to clients in the new office from the new distribution point.

You need to create a boundary for the new office.

Solution: Create an IP subnet boundary for 10.5.0.0/16.

Does this meet the goal?

A. No

B. Yes

Answer: B

Explanation:

Explanation
