NEW QUESTION: 4

Two members of the finance department have access to sensitive information. The company is concerned they may work together to steal information. Which of the following controls could be implemented to discover if they are working together?

- A. Mandatory vacations
- B. Separation of duties
- C. Least privilege access
- D. Mandatory access control

Answer: A

Explanation:

A mandatory vacation policy requires all users to take time away from work to refresh.

Mandatory vacation give the employee a chance to refresh, but it also gives the company a chance to make sure that others can fill in any gaps in skills and satisfies the need to have replication or duplication at all levels. Mandatory vacations also provide an opportunity to discover fraud. In this case mandatory vacations can prevent the two members from colluding to steal the information that they have access to.
