NEW QUESTION: 2

Which three are correct methods by which enrollment results can be created and made available for viewing?

- A. when a default enrollment is processed
- B. when Enrollment Authorizations are accepted by the participant as a part of self-service enrollment
- C. when an electable choice is saved as a part of self-service enrollment
- D. after the Evaluate Life Events batch process is completed successfully
- E. after the Close Enrollment process has completed

Answer: B,C,D

NEW QUESTION: 3

Your company has an on-premises Bitbucket Server that is used for Git-based source control. The server is protected by a firewall that blocks inbound Internet traffic.

You plan to use Azure DevOps to manage the build and release processes

Which two components are required to integrate Azure DevOps and Bitbucket?

Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. a Microsoft hosted agent
- B. service hooks
- C. a deployment M group
- D. a self-hosted agent
- E. an External Git service connection

Answer: D,E

Explanation:

When a pipeline uses a remote, 3rd-party repository host such as Bitbucket Cloud, the repository is configured with webhooks that notify Azure Pipelines Server or TFS when code has changed and a build should be triggered. Since on-premises installations are normally protected behind a firewall, 3rd-party webhooks are unable to reach the on-premises server.

As a workaround, you can use the External Git repository type which uses polling instead of webhooks to trigger a build when code has changed.

NEW QUESTION: 4

Which option correctly defines Release Time Fence?

- A.** a point in time within which the planning process ignores the Forecast demand and considers only the Sales Order demand when calculating gross requirements
- B.** a point in time within which the planning process cannot suggest new planned orders or reschedule existing orders to an earlier date
- C.** a point in time within which all the planned orders are NOT released and requires the planner to release it manually
- D.** a point in time within which the planned orders for discretely planned items are automatically released as WIP jobs or Purchase Requisitions
- E.** the number of days after which the Planned orders will be released

Answer: D
